Dear Mario,

We have worked on several projects through the years and I thought it time to provide you, in writing, a letter of recommendation and testimonial with respect to your high quality of design for lighting, security, sound, phone and computer networking.

Your professionalism, conscientiousness and hands on approach are recognized by all those you work with.

Your follow up is unsurpassed and your client relationships are enjoyed by our mutual clients and have been for many years.

Your level of experience and attention to detail far exceeds expectations and we hold your work in high regard. Your skill is recognized in all communities.

It would be my personal pleasure to speak to anyone about your work and skills.

Yours truly,
The Hicks Partnership Inc.
